

Ekaterina Bogdanova

I'm a 20 years old Russian national, currently an undergraduate architecture student in RWTH Aachen, Germany. As a future architect I believe my purpose is to make people's lives better and to design for people's wellbeing. I'm searching for a year long internship or an entry-level job starting October 2018 that will help me gain real world experience in various stages of design and planning. I'm organised, passionate, hardworking and ready to learn and improve myself.
